For Immediate Release

Library Needs Your Help to Win an eReading Room for Kids

June 2, 1014, Monroe, NC - The Union County Public Library has entered a circulation challenge from OverDrive, its vendor for eBooks and eAudios. From June 1 through June 30, if the number of checkouts of digital materials grows by 25 percent, the library will win a \$3,000 eReading Room for Kids. EBook and eAudio download— both adult and child content—will apply toward the total checkouts.

The OverDrive's eReading Room for Kids will be an appealing and user-friendly section of the library's Digital Branch. The eReading Room is designed for easy use by kids. All titles in the eReading Room for Kids include reading levels and other reading guides to assist parents and teachers in helping find materials for their child. Children's materials will continue to be available on the adult download site.

Please help the library obtain this wonderful addition for our Digital Branch. Check out an eBook or an eAudio today! The library's digital collection can be accessed through the website or directly at <http://downloads.union.lib.nc.us>.

For assistance in finding good reads, contact Shelley Fearn, Reader's Services Librarian at 704-283-8184 ext. 241. She will help you find something that will suit your taste that is available for checkout with no holds involved.
