Mosquito Larvicide Request Form

Property Information

Owner: _____

Is this a rental property? Y/N If yes, Tenant Name: _____

Address: _____

Phone: (h) _____ (w) _____ email: _____

I understand that:

Larvicides are products used to help control mosquitoes outside my home. They work by killing mosquito larvae and pupae before they can grow into biting adults. When used according to product label instructions, larvicides do not harm people, pets, or the environment.

Larvicides are used to treat standing water that:

- Will not be used for drinking
- Cannot be covered, dumped or removed

When using larvicides, I understand that I must follow the instructions on the label and not apply more than directed or reapply more often than instructed.

Note: Mosquito larvicide (“dunks”) must be picked up at the Union County Environmental Health office. Delivery is not available.
