

May 15, 2019

Dear Union County Resident,

We need your help to determine the key factors that impact the overall health and safety of Union County residents. **Please click a link below and take about 10 minutes to complete the 2019 Community Health Assessment (CHA), and encourage your family and friends to do the same.** Your responses are anonymous and will be compiled with all responses received for each age group to help determine the physical, mental and environmental health needs of Union County teens, adults and senior adults.

All responses will help the Union County Human Services Agency, Novant Healthcare, Atrium Healthcare, and our community partners determine the health and wellness services needed, the level of service needed, and locations in the County where they are most needed.

To complete the survey, please click the link below based on your age group:

[2019 CHA-Teen survey](#) (Age 13-17)

[2019 CHA-Adult survey](#) (Age 18-61)

[2019 CHA-Senior survey](#) (Age 62+)

To ensure your response is counted, please click "Submit" at the end of the survey.

Please contact the Human Services Community Support and Outreach Director, Stephanie Starr, at Stephanie.Starr@UnionCountyNC.gov or 704.296.4302 with any questions about the CHA.

Thank you for taking the time to help us understand your perspective and help ensure that Union County will be prepared to address key factors that impact overall well-being for you and your family and friends.

Regards,

Janet Payne
Human Services Agency Assistant Director
